

# BLUE SHIELD F22

## Industrial Grade Temporary Surface Protection Board

**Product Description:** *Blue Shield F22* is a durable, industrial strength hard surface protection product.

**Composition:** Consists of a single ply, moisture resistant, recycled fiberboard

**Specifications:**

**Caliper:** 22 mil

**Width:** 35 in

**Length:** 100 LF

**Roll Weight:** 24 lbs

**Pallet Weight:** 1280 lbs

**Put Up:** 52 rolls per pallet

### Impact

22 mil thick, high density fiberboard protects against dents, digs and equipment movement.

### Durable

Resists tearing and abrasion, F22 can withstand the most rigorous job site applications.

## F22 PROTECTION

### Water Resistant

F22 features a water resistant, fiber chemistry temporarily holding out liquids.

### Breathable

Will not trap moisture that could lead to mold or curing issues of newly finished flooring.
