

Blue Shield Grade GPW

Product Description: Blue Shield General Purpose Wrap is a poly-coated, reinforced laminated paper.

Composition: General Purpose Wrap (GPW) is combination of 2 kraft sheets with an outer coating of 1 mil white LDPE. Reinforcing fiberglass is laminated between the kraft sheets for added strength and durability.

Sizes & Weight: Blue Shield GPW is offered in the following widths and lengths:

Widths: 24", 36", 48", 60", 72", 96"

Length: 300' and 600'

*** Custom sizing is available, contact Holland for more information***

GPW weighs approximately 28 lbs per MSF (thousand square feet).

Blue Shield GPW Features:

- Oil, grease and water-resistant barrier
- Reinforced for tear and puncture resistance
- Superior MVTR (Moisture Vapor Transfer Rate)
- Non-bleed, non-staining
- Superior forming characteristics, easily folded without cracking or barrier loss.

Superior Barrier

The key in protecting steel or metal is having an excellent moisture barrier. Several of the Blue Shield products and other metal packaging papers are constructed with a single layer of extruded polyethylene for barrier. This type of construction offers one layer of moisture protection.

Blue Shield GPW is a superior barrier offering two layers of moisture protection: the external poly-coating and the barrier laminate joining the two sheets of kraft.

Blue Shield GPW

Two Layers of Moisture Protection

Applications

- Metal Packaging
- Machine Part Wrap
- Lumber Wrap
- Floor Liner for trucks or rail cars
- High Strength moisture barrier wrapping paper
