Red Rosin Paper

Product Description: Red Rosin Paper is a medium weight, sized red recycled kraft sheet

Roll Size:

Widths: 36"

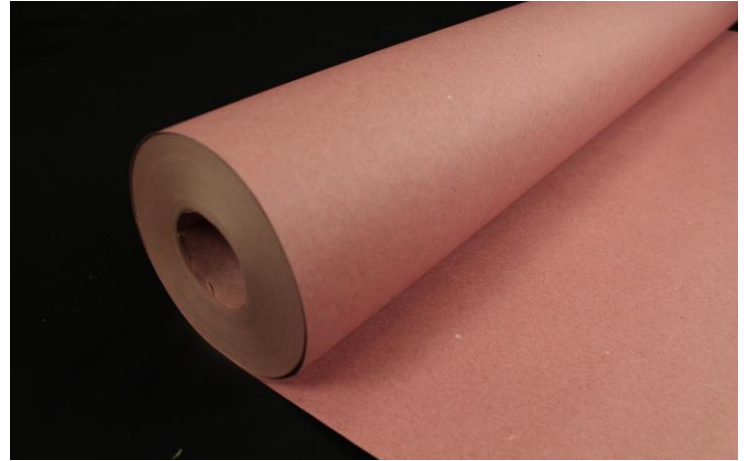

Length: 167'

Put Up: 83 rolls per pallet

Red Rosin Paper weighs 21 lbs per MSF, 10.5 lbs per roll.

Red Rosin Paper Features:

- Easy to Handle, Conform and Cut
- Sized for light duty water resistance
- Economical for temporary surface protection.

Surface Protection

Job site protection is critical to avoid damaging flooring as well as other surfaces such as countertops, doors, windows, etc. Red Rosin Paper provides an economical solution for protection.

Underlayment

Red Rosin, when used as an underlayment, provides separation between the sub-floor and the finished flooring. This separation reduces the noise associated with poorly installed wood flooring.
