

Manufacturing Excellence

Blue Shield Grade 3560

Product Description: Blue Shield Grade 3560 is a high strength all-purpose water-resistant laminated paper.

Composition: Grade 3560 is a combination of 2 sheets natural kraft paper laminated with 60 lbs/3MSF of asphalt. 3560 is reinforced with a tri-directional pattern of fiberglass.

Sizes & Weight: Blue Shield Grade 3560 is offered in the following widths and lengths:

Widths: 24", 36", 48", 60", 72", 96"

Lengths: 300'

*** Custom sizing is available, contact Holland for more information***

Grade 3560 weighs approximately 42 lbs per MSF (thousand square feet).

Superior Protection

Holland's Blue Shield 3560 provides tremendous moisture protection with the adding an element of strength and durability. The tri-directional pattern of fiberglass reinforcement provides excellent tear resistance and strength. The product is ideal for construction and building applications as well as heavy duty industrial packaging.

Blue Shield 3560 is highly suitable for concrete curing due to the semi permeable vapor retarding properties of the asphalt laminate. 3560 aids in the proper curing period that is essential for the strength and eventual life of concrete.

Applications

- Export Shipment Protection
- Machine Part Wrap
- General Metal Wrap
- Floor Liner for trucks or rail cars
- High Strength moisture barrier wrapping
- Concrete Curing paper
