

WAT Application Equipment

The Phoenix E-1 is an electric, water activated tape dispensing machine with an LED information screen. Tape lengths range from 6" to 45". This machine is perfect for those packaging more than 40 boxes per day and using several different box sizes.

With a robust, metal frame, the E-1 is designed for the demanding applications and will stand the test of time. Proudly Made in the USA.

Phoenix E-1 – Electric WAT Dispenser

Additional Options

E-2 Upgrade – Adds an electronic eye which enables a packer to reach towards the machine and the tape is dispensed at the same length as the previous cycle.

E-4 Upgrade – Hands free dispense at the touch of a key, fully programmable keypad can be customized to your box sizes. Special dispensing patterns can be programmed and retrieved quickly to H-seal. Stores 5 preset combinations with up to 3 custom lengths per preset. Add a coms package to plug in a scanner or to a terminal for even faster use.

All Phoenix electric tape dispensers hold tape from 1-3" in width and up to 1,000' in length. Dispenses tape in lengths from 6" up to 45" at 48" per second.
